RE: Comments on Proposed Rule Implementing Women-Owned Small Business Federal Contract Assistance Procedures. 72 Fed. Reg. 73285, December 27, 2007.

Dear Mr. Taylor:

The rules you are looking to put in place will take us out of the federal contracts, we are a minority and deserve to bid on the federal contracts. Us women can do just as fine if not better than most businesses.

In my industry it has been hard for women to get federal contracts due to the fact that they have been using the same people for so long and will not look at new companies to improve what they need.

Sincerely,

Shelly Wegand
